JAMES GAVIN AND OSCAR B. HORD Volume 1, Published by BINGHAM & BOUGHTY, Judge David McDonald, one of the most ecommendation of the work:
STATUTES OF INDIANA. BY GAVIN & HORD.—Fome

ADVERT. SEMENT

FOR LAWYERS, JUSTICE OF THE PEACE,

OF THE GOVERNMENT

of Indiana.

months ago, the above named gentlemen issued proposals for publishing, in two volumes octavo of a me hob pages such, all the stautes of the State passed since 1651, with annotations. The first volume of the work is now published; and the manner of its execution, bc.'s mechanically and editorially, deserves the thanks of the profession.

The imperfect manner of publishing our statutes under State authority, has always been a source of great income venience to the Indiana lawyer. The revision of IEA, as well as the statutes passed tince that year, might almost as well have been published without any index. Up to this time the lawyer has constantly been under the recently of turning over, leaf by leaf, the volumes of our statutes to find any particular ensetment. And every one knows how ann ying and provoking this is, especially in the hurry of business in our Course Happily for the profess on, the publication under consideration promises a better state of things in the future. The first volume of Messes. Gavin & Herd's work contains an excellent and copious index, which to every practicing lawyer in State is itself worth the money which the volume costs.

The volume under review contains another excellent and the volume are supplied with valuable marginal indices. CHICAGO, ILLINOIS. This Hotel is decidedly the most convenient of any in hecity, white for large and pleasant rooms and good to that a giance at the margin is sufficient to apprise in reader of the contents of the page.

Another matter of great importance to the lawyer in this volume is a good collocation of the subjects of all legislation since 1851. Heretofore, the lawyer in examining our legislation on any given subject had first to find what was recevant to it in the Savislon of 1852, and then to turn over the pages of the volumes of subsequent Statules, to see how far recent legislation may have repealed or modified the provisions contained in that revision, and even these he would often feel daubt whether the had fount all the legit lation on the sudject of his inquiry. Measure, Gavin & Hord have relieved us of all this trouble and doubt. They have collected together in consecutive pages of all the statutes made since 1851, on the same subject. Thus, on pages 373 to 377 of their first volume they have collected all our legislation, now in force, on the subject of hastand and wite, including the act of 1851 and three acts of 1857. And they have followed the same mode of collection, in ap, reprists consecutive pages, in regard to all other topics of legislation.

A still more valuable, feature are the copious and some rate notes contained in the volume in question. This vol-ume includes the Constitution of the United Plates, the Constitution of Indiana, and several important acts of Virginia and statutes of Congress, and a large portion of our own statutes now in I rec. The numerous decisions of the Courts on the various previaious contained in these FINE JEWELRY AND FANCY AR-In their line suitable for presents. A large stock of Cheap Watches, low proced Jewelry.
